

Honey and Leonard

Written by Mark Paul Smith

Lovers in their seventies run away from the world to discover why it is more important to love than be loved.

About the Book

Honey and Leonard are in their seventies when they fall in love. Leonard is in the early stages of Alzheimer's and Honey thinks her love will cure him. When their heirs try to keep them apart, they flee to France in violation of court orders.

Pursued by police, press, and private investigators, they become an international media sensation. In a time just before cell phones and the Internet, they become the Bonnie and Clyde of love. Their whirlwind romance encompasses arsenic poisoning, elder law, Alzheimer's, an Eiffel Tower arrest, and a Paris jail break. Through it all Honey is in the middle of the difficult process of discovering that love does not conquer all. Or does it?
